NHQ Hall of Fame – 1st Inductee <https://www.probuilder.com/home-building-inaugural-honor>

“In a word, Pat is exceptional. He is a master at identifying, analyzing and solving complex problems, and thrives in an environment of trust and accountability. Other words that describe Pat are smart, hard-working, tenacious, productive, fair and ethical. In my 40 year career in real estate development, I have not worked with anyone who is more talented or effective than Pat. I would highly recommend him for any project assignment related to engineering, development, deal structuring, contract negotiations, research or analysis”

Alex Steadman

Associate Principal – RVI <https://www.rviplanning.com/>

“I’ve worked with Pat on several large master planned communities over the years, and he ranks at the top when it comes to bringing a team together and delivering a successful project. His ability to establish a great working rapport with everyone involved results in a team approach to the budgeting, design and construction phases of a project. Pat has high expectations which brings out the best work from his team, and I can honestly say that his projects have all been the ones that I have been proud to have been a part of.”
